Collaboration: Cross-functional collaboration (Design, Product, Research, Engineering), Agile/Scrum, design-to-development handoff, Jira, Confluence.

UX PROJECTS

Glowy — Mobile Skincare App

- Designed an end-to-end mobile experience, including user flows, wireframes, and high-fidelity Figma prototypes.
- Focused on product discovery, routine tracking, and personalized recommendations.

Urban Scape Tours — Travel Platform Redesign

- Redesigned the trip search and booking experience for a Canada/US short-haul bus platform.
- Improved information hierarchy and simplified the booking flow.

PROFESSIONAL EXPERIENCE

Application Developer

Oracle, Québec | *January 2020 – April 2026*

- Translated functional requirements into clear technical specifications, helping teams align on application functionality and implementation requirements.
- Collaborated with cross-functional teams in Agile/Scrum workflows, participating in sprint planning, technical discussions, and solution development.
- Created and maintained technical documentation, including data-flow diagrams and technical specifications, to communicate system behavior and requirements clearly.
- Developed and tested RESTful APIs using JSON/XML, supporting system integration and communication between application components.
- Designed and developed enterprise application components in Java, applying software engineering principles to build scalable and maintainable solutions.
- Conducted unit and integration testing with JUnit to identify and resolve issues and improve application.

Freelance Designer

2014 – Present

- Created visual design materials including logos, flyers, and promotional graphics based on client or project requirements.
- Used Adobe Photoshop and other design tools to develop visual concepts and refine designs based on feedback.
- Applied principles of typography, composition, color, and visual hierarchy to create clear and engaging designs.
- Maintained an independent design practice while exploring freelance opportunities through online platforms.

Real Estate Agent (Part-time)

Blouin Immobilier, Québec | April 2021 – June 2024

- Consulted with clients to understand their needs and preferences, providing personalized guidance throughout rental decisions.
- Presented properties and coordinated visits based on client requirements, adapting recommendations to individual needs.
- Followed up on client requests and feedback to support a smooth experience and maintain client satisfaction.

Sale Advisor

Laliberte, Québec | April 2019 – January 2020

- Engaged with customers to understand their needs and provide tailored product recommendations, strengthening customer-focused communication skills.
- Organized and presented merchandise to improve product visibility and customer engagement.
- Supported day-to-day store operations, including transactions, inventory availability, and product organization.

Administrative and Marketing Assistant

Centre Intelligence, Tunisia | November 2014 – May 2015

- Created visual materials and promotional flyers using Adobe Photoshop to support marketing and communication initiatives.
- Assisted with planning and executing advertising campaigns to promote company services.
- Managed scheduling and client communications while coordinating multiple administrative tasks.

Web Development Intern

Centre National des technologies de l'éducation, Tunisia | January 2013 – April 2013

- Assisted with front-end development using HTML and CSS to create and update website pages.
- Participated in requirements analysis, system design, development, and testing throughout the software development process.
- Developed and modified back-end functionality using PHP, SQL, and Java within Eclipse.
- Tested and debugged user interface components to improve responsiveness and cross-browser compatibility.
